

## Putting On Socks

Horses can have a variety of distinguishable leg markings. Try to draw each of them, putting one marking on each leg.

1. **Coronet Marking** (a thin white band just above the hoof)
2. **Sock** (a white marking that extends from the hoof to a third of the way up the cannon bone)
3. **Half-Stocking** (white coloring that extends from the hoof to half way up the cannon bone)
4. **Full Stocking** (white coloring that extends from the hoof to just below the knee)

**Challenge yourself and draw these additional leg markings:**

1. **Pastern Marking** (a thick white band that extends from the hoof to just below the fetlock)
2. **Heel Marking** (a blotch of white just above the back of the hoof)
